

## **Patient Participation Group Self-Assessment**

### **Part 1 - The PPG is working, in partnership, with the practice?**

1. Practice staff regularly attend my PPG meetings and/or provide an opportunity for a PPG representative to meet with practice staff?
2. PPG members (and patients?) and the practice regularly input into the PPG meeting agenda?
3. PPG members overall feel that the practice acknowledges and values the PPG input?
4. PPG members are able and willing to challenge the practice in the role of a 'critical friend'?
5. The relationship between the PPG and the practice is one of mutual respect?
6. The PPG undertakes activities to support the practice?

### **7. Part 2 - Communicating with the wider practice population?**

#### **Information in**

1. My PPG is actively involved in gathering the views and experiences of its patients?
2. My PPG is actively involved in gathering the views of specific groups of patients or on specific issues?
3. My PPG is provided with information to know and understand the practice patient population?
4. My PPG is able to review patient feedback with the practice to inform ideas, plans, improvements or changes?
5. My Practice/PPG are using patient feedback gathered to inform plans, services provided and improvements?

### **Part 2 - Communicating with the wider practice population?**

#### **Information out**

1. My PPG is actively involved in promoting and informing patients about key health messages, health and wellbeing services and support for health conditions?
2. My PPG is actively involved in sharing news and information about the practice and the services it provides?
3. My practice/PPG is evidencing how patient feedback has been used in a "you said, we did format"?
4. My PPG and its activities are widely promoted to patients of the practice?

### **Part 3 - A platform to test and modify ideas?**

1. My PPG is actively involved in providing a patient perspective to support planning and decision making at the practice?
2. My PPG is able to input ideas at the beginning of the conversation?
1. My PPG bring ideas to the PPG for constructive discussions with the practice?
2. My PPG is able to offer the patient perspective on a range of issues? My practice has brought to us and we have been able to provide the patient perspective
3. The PPG has brought ideas to test out with the practice and or other patients? (out of choice or necessity?!)

### **Part 4 - A wider patient voice?**

1. My PPG is involved and influencing the local health care environment beyond the practice?
2. My PPG links with its local community?
3. My PPG runs, supports or participates in local health activities?
4. My PPG works with other PPGs?
